# Green from the Start

Steel is the most recycled material in the world, and Nucor is the largest recycler in North America - recycling over 20 million tons of steel per year. Nucor Building Systems buildings average 87% recycled content, with our roofs Cool Roof rated by the CRRC. Your NBS building may also contribute to earning LEED points.

# Design Flexibility

Whether for municipal, state, or military use, Nucor can design your building to meet the specific government standards set forth. Some are built as landmarks to be enjoyed for years to come, while others are designed for utilitarian use.

# Economical and Efficient

From community centers to military buildings, Nucor has manufactured multiple projects representing the vast range of government related facilities. As a leading steel building manufacturer in North America, Nucor Building Systems offers practical, versatile metal buildings designed for longevity, with minimal maintenance, and years of reliable service.

# Stringent Design Standards

# Custom Building

Nucor Building Systems will custom design your facility, incorporating the latest engineering knowledge in the industry today, to meet your unique requirements. Your building will be designed and certified by company registered professional engineers, and fabricated to your specific needs.

# Why Nucor Building Systems?

## The Highest Quality Standards

Nucor Building Systems is one of the first metal building companies to achieve IAS AC472 accreditation - the high quality standard certification program written specifically for the metal building industry. All engineering follows industry specifications and standards published by the American

Iron and Steel Institute, and the Metal Building Manufacturers Association, with the ability to design to Factory Mutual approval. These standards help ensure you have a safe, dependable metal building.

## Made in America

Nucor Building Systems buildings are designed, detailed, and fabricated in America. Our buildings are crafted using American Steel, American Pride, and American Quality.

## Financial Stability

As a Nucor (Fortune 500) company, we are one of the most flexible and diverse building manufacturers in operation today, with access to our own steel supply. Even in economic challenges, our no lay-off practice ensures your building is being designed and fabricated by well trained, loyal employees who know their jobs.
